

# RED ALERT:

**Monster \$1.8 Trillion Bailout May Shred Dollar For Good...**

**Gold Posts Its Greatest One-Day Gain Ever...**

**...But This Silver Stock Could Very Well Top It!**

## **Here's Your FREE REPORT: *The One Silver Stock You Must Own Right Now!***

Dear Beth,

No matter what you hear on the news, Wall Street will continue its free-fall as the Feds run around like chickens with their heads cut off in a frantic attempt to keep asset prices from falling further...

...While the dollar hangs by its teeth!

But it's Bernanke and Paulson's next scorched-earth assault that could really push it into the abyss for good.

### **Rip-Roaring Inflation Ahead. . .**

It's a \$1.8 trillion bailout -- the biggest in American history -- that will send panicked investors rushing into commodities...with MASSIVE profits for those who jump in first.

Just last week, gold posted its biggest one-day gain ever. Just wait until you see where \$1.8 trillion in newly created dollars will send it!

But as you know, it's silver I'm really excited about right now...

### **One Stock . . . Many Ways To Profit**

In "SILVER SURFING: How to Ride the Silver Wave to Record Profits," you learned why silver will be the top commodity to rise from Wall Street's ashes. (If you haven't read it, [click here](#) now.)

Now, in your *second* FREE report, "SILVER SURFING PART TWO: The Single Best Silver Stock You Can Buy Now," you'll learn about one little silver company that will leave all others in the dust.

It sits on one of the oldest and richest silver mines in the world — one discovered over 450 years ago by Spanish Conquistadors...

This company has already begun a very steep growth curve over the last two years, increasing its earnings 378% by producing more than 400,000 ounces of silver.

But here's the best part: This tiny little company could eventually control more than 500 million ounces of silver.

And it gets even better.

This November, you'll have the opportunity to meet representatives from this company when you join me at this year's blockbuster New Orleans Investment Conference.

From November 13 to 17, the world's most acclaimed financial wizards — including [Doug Casey](#), [Marc Faber](#), [Peter Schiff](#), [Dennis Gartman](#) and more — will show you how to profit big on the rebound in precious metals.

You'll also hear from [Fred Thompson](#), [Steve Forbes](#) and [Stephen Moore](#) about how to thwart Washington's assaults on your wealth...how to profit from the energy crisis...and what this year's election results will mean for you.

PLUS: You'll find out how to take advantage of opportunities in options, currencies, hedge funds, alternative energy, bonds and more.

AND you'll enjoy a rollicking debate pitting Doug Casey (libertarian), Fred Thompson (conservative) and James Carville (liberal)!

There's no doubt that the New Orleans Investment Conference will be the best investment opportunity of the year.

But the Conference is coming up quickly, and you need to make your plans to attend now, while you can still save \$300.
